About us

GADA Technology is located in Melbourne's exciting Hardware Lane. We provide the technical design and support to our sister company Internmatch.io which is growing globally very quickly! We have developed a very capable framework called the Genny project which allows us to develop and maintain multiple projects from the same services. It is microservices based and runs on our AWS systems. We have shown great innovation and our current team is around 12 developers (+ all our Internmatch.io colleagues).

Qualifications & experience

- 10-15 Years IT/Engineering Experience
- Degree or above in Engineering or IT
- OpenSource (No Microsoft is used at all)
- Leadership and extensive DESIGN experience
- 10 years+ Java (We use JEE and Quarkus)
- MySQL/bash/Maven/Git
- AWS Experience (Desirable)
- Docker
- Linux (Ubuntu)

Tasks & responsibilities

- Design Framework components (Primarily Java 11)
- Learn, understand and support KIE Rules and Workflows
- Provide leadership to the development team
- Interact with CTO, Team Leader, and product stakeholders
- Interact with Testing, Frontend, Business Logic, and DevOp team members

- Assist with Project/Task planning
- Reports to the CTO
- Mentor Interns

Benefits

- Work from home is available. Flexible work arrangements.
- A fast 64GB RAM , 2TB Macbook will be provided to you once you are onboarded.

Employer questions

Your application will include the following questions:

Which of the following statements best describes your right to work in Australia?

How many years' experience do you have in a software development role?

Have you worked in a role which requires a sound understanding of the software development lifecycle?

Be careful

Don't provide your bank or credit card details when applying for jobs.
